**REUSABLE
EARPLUGS
NEW NRR 27**

FEATURES

- Independently tested NRR 27, with a new sound dampening additive.
- NRR of 27 gives protection in most noisy environments.
- Easy grip handle lets earplugs easily slip into ear.
- Air pocket in tip provides cushioned comfort.
- Earplugs can be washed and reused.
- Pocket-Pak® carrying case provides hygienic storage of plugs between uses.
- Brightly colored for easy compliance checks.
- Available in corded, uncorded, and corded metal detectable models.

BENEFITS

NRR 27 PROTECTION

With an NRR of 27, the Rockets earplugs provide serious protection for most noisy environments. Tested independently in an accredited laboratory to ANSI S3.19-1974.

GET A GRIP

Rockets reusable earplugs are designed to give you a great grip. The easy grip handle lets them easily slip into the ear. And it's brightly colored for compliance checks.

AIR CUSHIONED FOR COMFORT

The air pocket in the tip gives cushioned comfort for all-day wear. The soft, flexible flanges provide a superior seal and fit most sizes of ear canals.

WASH AND WEAR AGAIN

Rockets earplugs can be hand washed and reused. Each pair comes with a Pocket-Pak carrying case to keep them clean when not in use. The smooth shape slides easily into your pocket. No sharp edges.

MOLDEX TECHNICAL ASSISTANCE

Moldex provides all of the technical assistance required to set up a hearing protection program. For more information call 800/421-0668 ext. 512/550 or 310/837-6500 ext. 512/550.

MEAN ATTENUATION DATA OF ROCKETS: NRR 27

Frequency (Hz)	125	250	500	1000	2000	3150	4000	6300	8000
Real Ear Attenuation (dB)	34.3	35.3	36.8	34.7	35.5	40.5	37.5	40.3	44.4
Standard Deviation (dB)	4.1	4.4	5.1	3.1	3.4	3.7	3.8	6.2	3.8

Tested ANSI S3.19-1974 by Michael & Associates, Inc., State College, PA.
EPA Noise Reduction Rating 27 decibels.

! WARNING TO USER

Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn. Failure to follow all instructions could result in hearing loss or injury. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury. Rockets must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations. Overprotection can be dangerous. The wearer must be able to hear warning signals. Wearers with hearing loss should exercise extreme caution. It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace. Failure to follow these warnings could result in serious injury or death.
